

# Package ‘simputation’

July 20, 2016

**Maintainer** Mark van der Loo <mark.vanderloo@gmail.com>

**License** GPL-3

**Title** Simple Imputation

**LazyData** no

**Type** Package

**LazyLoad** yes

**Description**

Easy to use interfaces to a number of imputation methods that fit in the not-a-pipe operator of the 'magrittr' package.

**Version** 0.0.0.1

**Depends** R (>= 2.15.3)

**Imports** stats, MASS

**URL** <https://github.com/markvanderloo/simputation>

**BugReports** <https://github.com/markvanderloo/simputation/issues>

**Date** 2016-06-01

**Suggests** testthat

**RoxygenNote** 5.0.1

## R topics documented:

impute_lm . . . . .	2
simputation . . . . .	2

<b>Index</b>	<b>3</b>
--------------	----------

---

impute_lm	<i>Linear regression imputation</i>
-----------	-------------------------------------

---

**Description**

Use to fit and impute missing data.

**Usage**

```
impute_lm(data, x, ...)
```

```
impute_rlm(data, x, ...)
```

**Arguments**

data	The data
x	a <a href="#">formula</a> object.
...	further arguments passed to <a href="#">lm</a> or <a href="#">rlm</a>

**Details**

Linear models are fit with the `stats::lm` function. Robust linear models are fit with `MASS::rlm`.

---

simulation	<i>simulation</i>
------------	-------------------

---

**Description**

simulation
